

15695 – Giant Balance Scales

Assembly Instructions

Components:		Part	Name	Qty	Part	Name	Qty	Part	Name	Qty	Part	Name	Qty
	A.	Base		2	B.	Base Support	1	C.	Balance Beam	1	D.	Bucket Holders	2
	E.	Buckets		2	F.	Bag of Screws	1						

<p>1. Check you have all the components.</p>	<p>2. Position a base section and base support as shown. Screw into position in the direction indicated, ensuring the join is square.</p>	<p>3. Position balance beam as shown.</p>	<p>4. Position the remaining base section as shown. Repeat step 2.</p>
	<p>These scales are not calibrated and are to be used for exploring weight and balance. If you want to do more accurate balance work then the scales can be calibrated by adding weights such as stones to one of the buckets or directly on to the balance beam until it is level. You could get the children to do this for added learning.</p>		
<p>5. Position the bucket holders as shown. Screw into place in the direction indicated.</p>	<p>6. How to Calibrate.</p>	<p>7. Enjoy.</p>
