Description

Get ready to park and learn with our 1-20 Car Park! This versatile math resource is perfect for those learners who

love nothing more than revving their engines and racing around. Designed to make numeral recognition a whole lot more fun, this clever car park brings numerals to life through interactive small world play. The surface is fully wipe-clean too, meaning learners can add their own numbers, patterns or sequences for a fresh challenge every time. Whether you're working on number matching, ordering, or simply organising traffic, this handy tool is the ideal addition to any nursery or reception class.
