Description

Ready to turn your learners into shape detectives? Our Mrs Mactivity Shape Finders is your go-to tool for a hands-on approach to exploring shapes and patterns in the world around us. At 30cm long, these five clever frames invite learners to uncover circles in tree stumps, triangles in

roof tiles, and hexagons in—well, tricky places! These versatile tools will fit seamlessly into your early years maths curriculum, helping develop numeracy skills in both indoor and outdoor settings.
